SEALED LEAD ACID BATTERY CHARGERS

This range of battery charger, has built in intelligence, designed to deliver exactly the right amount of charge automatically every time.

Features of this charger include:

- * Micro-processor controlled
- * Short circuit protection
- * Reverse polarity protection
- * High temperature protection
- * Soft start current control
- * Three stage charging
- * Constant voltage float / standby
- * Proportional timing
- * LED indication of float charge, bulk charge, short circuit, reverse polarity, thermal shutdown
- * UK Manufactured

Plug top charger

PART NUMBER	VOLT	BATTERY CAPACITIES

Chargers are available for higher capacity batteries. For further information, please contact our sales team.

Desk top charger

Chargers for Panasonic style sealed lead acid batteries

These chargers are built specially for the Panasonic **nose clip** style of batteries. They are easy to use and comply with the relevant specification directives.

Features include

- * Specifically designed two stage charging
- * LED indication for Battery Charging, 80% Charge and Battery Ready.
- * Twin charger will charge two batteries independently

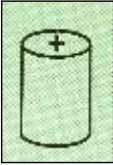

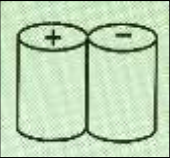

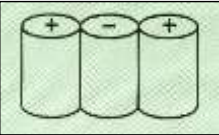

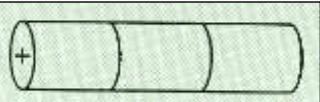

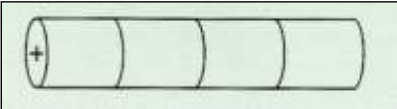

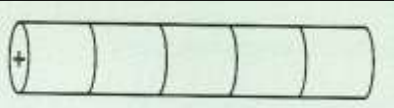

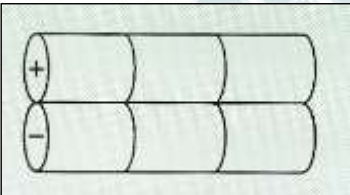

Part number	Voltage	Battery Capacity	
CH2312 Single Plug Top Charger	12	2.0 - 2.3 Ah	CH2312
CH2312/2 Twin Bench Top Charger	12	2.0 - 2.3 Ah	CH2312/2

FOR FURTHER INFORMATION ON ANY OF THE CHARGERS, PLEASE CONTACT US ON 0845 251 1000

EMERGENCY LIGHTING PACKS

NICAD PACKS

These packs are made with high temperature Nicad D cells and welded in series. They are supplied overshrunk complete with solder tags or fly leads. AMP connectors and end caps are also available at an additional cost. Please stipulate your requirements at the time of ordering.

	VOLT	CAP		Part No
	1.2v	4.3Ah	Standard pack c/w fly leads & AMP connector c/w End Cap c/w AMP connector & End Cap	ESP0403
	2.4v	4.3Ah	Standard pack Stick pack c/w fly leads & AMP connector c/w End Caps c/w AMP connector & End Caps	ESP0404 ESP0404-S
	3.6v	4.3Ah	Standard pack c/w AMP connector	ESP0405-S/S

	7.2v	4.3Ah	Standard pack c/w AMP connector c/w End Caps c/w AMP connector & End Caps	ESP0450

SEALED LEAD ACID BATTERIES

Some emergency light systems are fitted with Sealed Lead Acid batteries which can also be replaced. There are two popular sizes which are listed below, however please see pages 16 & 17 for other sizes.

Description	Volt	Cap	L x W x H (mm)	Part No
NP7-12	12	7Ah	151 x 65 x 98	NP7-12
NP12-12	12	12Ah	151 x 98 x 97.5	NP12-12

For further information, please do not hesitate to contact us.

WHAT ELSE CAN WE SUPPLY?

As we have access to various suppliers, we are also able to offer a number of other batteries for applications not listed in this catalogue. Please contact us for further information on batteries used in any of the following:

- * **Two-way Radios**
- * **Barcode Scanners**
- * **Power Tools**
- * **Laptop Computers**
- * **UPS Systems** Large and Small
- * **Golf and Mobility Batteries**
- * **Telephones**
- * **Video Cameras**
- * **Photography**
- * **Hearing Aids**
- * **Electronic Devices**
- * **Two-way radio audio accessories**
- * **Alarm Systems**
- * **Car and Commercial**

We are also able to offer a build or refurbishment service for obsolete or non-standard equipment.

BATTERY SHELF LIFE

Our guidelines for battery shelf life are based on storing in a dry area at an ambient temperature of 20°C.

Chemistry	Shelf Life
Nickel Cadmium	5 years when stored in the open circuit condition
Nickel Metal Hydride	6 months to top charge - Do not allow to become fully discharged
Sealed Lead Acid	6 months to top charge - Do not allow to become fully discharged
Alkaline	5 years
Lithium Manganese Dioxide	5 years
Lithium Poly Carbonmonofluoride	10 years
Lithium Thionyl Chloride	10 years
Silver Oxide	2 years
Zinc Air	5 years in unopened packets
Zinc Carbon	2 years
Zinc Chloride	2 years
Mercury	2 years
Mercury Batteries are no longer available in Europe due to EC Regulations.	

WARRANTY

All of our products carry a twelve month warranty from the date of purchase. Due to the various products we supply, they will be covered as follows:

- * Nicad, Nimh and Li-Ion Batteries shall maintain a minimum of 80% capacity
- * Sealed Lead Acid Batteries shall be free of defects in material and workmanship for 12 months
- * Electronic items carry a 12 month parts and labour warranty
- * Non rechargeable batteries shall perform at 100% rated capacity upon delivery

All items returned to COMBAT - Alexander under warranty should be accompanied with a short report detailing the nature of the fault. Please ensure you include your name, address and telephone number with the item.

For a returns authorisation, please contact Customer Services on 0845 251 1000.

CATALOGUE NOTES

Due to continual product improvements, product specifications may change without notice. Every care has been taken to ensure accurate information in this catalogue. We must bring to your attention that due to the ongoing instability of lead on the world's metal markets and fluctuating exchange rates, it may be necessary to implement price changes without notice. We will of course make every effort to hold our prices for as long as possible. COMBAT - Alexander reserve the right to correct misprints, omissions or errors and change products, prices and specifications without notice.

DISPOSAL OF BATTERIES

Nickel Cadmium and Sealed Lead Acid Batteries contain dangerous substances that are covered by various legislation including:

- * Deposits of Poisonous Waste Act 1972
- * Control of Pollution Act 1974
- * Environment Protection Act 1990
- * Batteries and Accumulators Regulations 1994

These acts dictate that batteries of this kind must not be disposed of with general refuse and spent batteries must be disposed of correctly.

Please contact us on 0845 251 1000 to obtain disposal information.

CARRIAGE

As our carriage costs vary depending upon the weight of the order please contact customer services on 0845 251 1000.
